Honors

May 2, 2016

Learning target(s): I can analyze a passage for a variety of things.

Agenda:

- 1. Vocabulary Lesson 22
- 2. Passage Study
- 3. Reading Time?

Homework:

- 1. Tomorrow we'll have a paper-sorting portfolio day
- 2. Vocabulary, p. 143
- 3. Ch. 11-13 due Wednesday

Tally

- If you are keeping a daily record of anything (participation, being prepared, listening, not falling asleep, etc.), remember to make a note of today's successes.

Pick one of these passages.

- 108-110: “We stood on a slope of a wooded hill” to “the waves were breaking upon the rocks.”
- 114-116: “Maxim did not reply” to “dragging poor Jasper after me on the end of his string.”
- Any other 2-page passage you thought was significant.
- Tell me in sentences what you notice. Explain the effect of these things. For example, “I notice that Du Maurier uses 6 dashes in this passage. This suggests that the speaker is upset and isn’t thinking calmly.” OR “I notice that there are lots of references to colors, specifically shades of blue. Blue usually has a calming effect, and in this passage the speaker seems at peace for a short while.”
- Consider symbols, syntax, diction, figurative language.

Turn in the scheduling form, please.

- If you gave it to someone in the office, that is fine.
- Put it in the tray and I'll make sure it gets to the right person. Thanks!
